WARNING AND SAFETY INFORMATION

- Read the user manual carefully before using the product.
- DO NOT use the product near a heat source, such as a fire source or a heating furnace.
- Avoid contact with liquids of any kind. DO NOT use the product in the rain or in high humidity.
- DO NOT operate the product with a damaged cord or plug, or a damaged output cable.
- DO NOT use the product around strong static electricity or magnetic fields.
- DO NOT disassemble in any way or puncture the product with sharp objects.
- Avoid using wires or metal objects that may result in a short circuit.
- This product must not be used by people (including children) with reduced physical or mental capabilities. Also, this product is not to be used by a person who has a lack of knowledge or experience with this type of product, unless they are supervised by a person who is competent in the safe use of this type of product.
- DO NOT expose the power pack to rain, water, snow or excessive moisture.
- Store the product in a dry and ventilated place.
- Fully charge the power pack before first use or if the power pack has not been used for a long period of time.
- To maximize the battery life, it is highly recommended to fully charge the battery every 3 months.
- Avoid charging the battery in the direct sunlight or a hot environment.
- As soon as a battery is fully charged, disconnect the battery from the charger and disconnect the charger from the power source.
- Avoid leaving the power pack unattended while charging overnight.

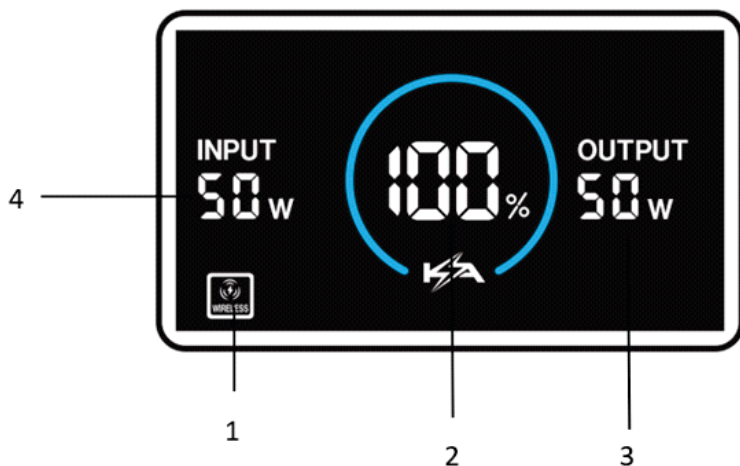

PRODUCT SPECIFICATIONS

Battery Capacity	88.8Wh /3.7V 24000mAh
Cell Type	Li PO
USB C PD Output x 1	60W Max
USB A Output x 1	QC 3.0 18W Max x 1
Wireless Charging Output	10W Max
LED Light Output	5W x 1
USB C PD Input x 1	60W Max
Working Temperature	-15~45°C
Weight (net weight)	1kg
Product Dimensions	170 x 83 x 32 mm
Product Certifications	IEC 62133
